

ORGANIC FARMING RESEARCH FOUNDATION

WHO WE ARE

Founded in 1990, the Organic Farming Research Foundation (OFRF) is a leading champion of organic farmers and ranchers.

We envision a future where organic farming is the leading form of agriculture - contributing to healthy and resilient people, ecosystems, and economies.

WHY PARTNER

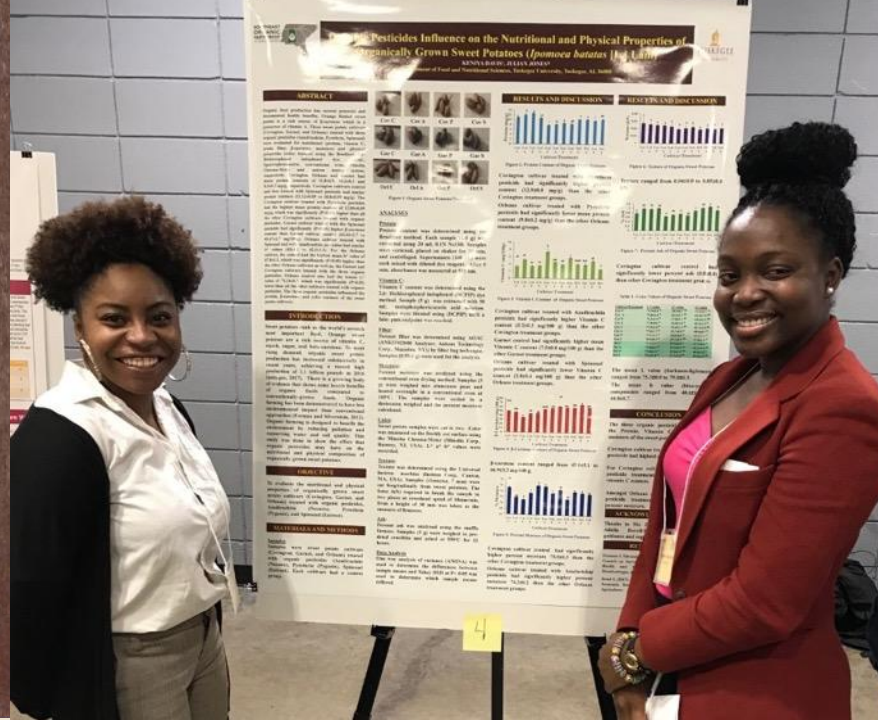

By supporting OFRF, you are contributing to the success of organic farmers and the overall growth of the organic sector.

OFRF is the perfect partner for companies who want to show their commitment to the success of organic farmers nationwide and connect with our audience of organic stakeholders.

POLICY

OFRF advocates for federal programs and policies that support the unique needs of organic agriculture, ensuring the voices of organic farmers and ranchers are heard in Washington, D.C. We work to ensure policy makers know the challenges organic producers face as well as the environmental benefits.

EDUCATION

OFRF translates research findings into free resources and educational materials that help organic farmers and ranchers implement best practices. We collaborate with farmers across North America to create and share these practical tools and platforms with the goal of advancing organic agriculture.

RESEARCH

OFRF identifies and funds innovative on-farm research that advances scientific knowledge, and the ecological and economic prosperity of organic farming. Our research grant program provides seed funding for researchers and farmers to find solutions to the top challenges facing organic farmers and ranchers today.

OUR FOCUS ON CLIMATE

OFRF's campaign, *A Path to Resilience*, is designed to increase demand for organic, expand organic acres, and ensure federal policies include soil health and best organic practices as part of a national climate solution. This will help us mitigate climate change and build resilient farms—leading to healthy people, ecosystems, and economies.

Our consumer education and strategic federal policy advocacy will lead legislators to pay closer attention to organic in our fight to curb climate change. This is critical to prepare for the 2023 Farm Bill, and a possible new administration who is committed to climate solutions. Now is the time to build coalitions with consumers and policy-makers a like.

While we are proud of our growth during the first six months of this project, we need an even larger megaphone to continue this momentum through our online presence and collaborative advocacy platform.

IMPACT PARTNER

Impact Partners do more than help keep the lights on. You produce ground-breaking research on critical environmental and farming issues, help us create free educational materials for farmers and ranchers, ensure policy makers understand the importance of organic and research needed to improve it, and demonstrate to consumers the importance of fighting climate change with organic farming practices.

In these uncertain times, your support helps us create systemic change in our food system, making agroecology and organic production the norm. We believe now is the time to invest even more in our future, and we can't do that without your support.

AMENITIES INCLUDE

We're excited to connect your brand's values with our mission. You will receive all amenities listed on the Partner Benefits slide, along with the following items (to be discussed in more detail!):

- Sponsorship of one of our projects (e.g., farmer webinar)
- Co-written social media posts/blogs/interviews to highlight your commitment to organic farmers.
- Recognition as an "Impact Partner" on annual fundraising events without needing to financially sponsor the event.
- Additional social media and partner article sharing.

GENERAL SUPPORT PARTNER

\$5,000 - \$25,000

GENERAL SUPPORT PARTNER

You will support OFRF's foundational work to increase the success of organic farmers and ranchers across the U.S. through farmer focused research, education, outreach, and advocacy programs.

Your investment ensures we can continue to identify the most pressing challenges facing organic farmers and ranchers, fund innovative research that finds solutions to those challenges, develop free educational resources for all to access, educate the public about the ways organic farming practices can help us fight climate change, and amplify the voices of farmers and ranchers from around the U.S. through our work on Capitol Hill.

AMENITIES INCLUDE

Depending on the level that you give (next slide!), we are eager to share your support of our work with our far-reaching community on our website, educational materials, social media and more.

We are proud to recognize you in the following ways!
